Remote Contract - Full-Stack .Net Developer

Job Type: Contract - Remote

Experience: .NET +7 years

Pre-Interview Assessment: This requires a TestDome assessment that will take 1 hour

Description:

Seeking Microsoft Full-Stack Developer with strong experience in Responsive Web Design Technologies. Candidate needs to be able to work remotely with little supervision while also collaborating as part of a Team. Individual should be detail oriented, results driven, and possess strong communication skills. Experience with multi-tier / microservice applications is a plus.

Required:

- ASP.Net MVC & Web API
- Microsoft C# (.Net Framework & Core)
- Web Languages (HTML / CSS / JavaScript)
- Responsive Web Design (Blazor & MudBlazor)
- Database Development (PostgreSQL, Redis, Marten)

Preferred:

- Git Source Control
- JIRA (Agile Scrum)
- Docker
- Scriben
- Syncfusion
